

**RFP TITLE: PROFESSIONAL SERVICES ASSOCIATED WITH PREPARATION OF GRANT APPLICATIONS, PROGRAM MANAGEMENT FOR HUD CDBG, CDBG-DR, CDBG-MIT, EDA, GLO AND OTHER AVAILABLE FUNDING STREAMS
RFP # 191201**

Q & A BATCH 1

1. There is a chance that there will be several awards to this RFP depending on how projects, mapping or planning are broken out. Flooding in Cameron County and the Rio Grande has many consequences and layers to address. Most likely no one entity can do it all. If a Proposer has specialties that will address a specific project we may select them to address it. We are primarily seeking assistance in developing projects and qualifying for available funding.
2. We are seeking proposals to help us prepare and organize our flood planning, mapping, and project mitigation efforts to be able to draw from Federal, State and other funding sources to maximize the resources directed to our county to address situations when excess rainfall events cause flooding in communities within the County. There are reports of funding in excess of \$20 Million, and perhaps significantly more. We are seeking services that can be reimbursed with grant related funding designated to address these issues.
