Cameron County Partners with Localgov to Simplify Venue Tax Compliance

Cameron County has introduced a new, user-friendly way for hoteliers and short-term rental owners to file and pay their Venue Tax. Starting January 7, 2025, businesses operating within the county will use Localgov, an innovative online tax administration platform, to ensure secure, accurate, and timely tax compliance.

“Partnering with Localgov allows us to provide our business community with a smarter, more efficient solution for handling Venue Tax obligations”, says Ramiro Aleman, Economic Development Director. “This platform streamlines the process, reducing the stress of compliance while ensuring taxpayers can focus on running their businesses.”

Localgov is trusted by hundreds of local governments across the country, offering tools that simplify tax filing for over 10,000 businesses. Key benefits include:

- Smart forms for streamlined data entry.
- Automatic tax and fee calculations for accuracy.
- Secure online processing to protect sensitive information.
- Flexible payment options, including ACH/EFT drafts and credit or debit cards.
- 24/7 filing and payment accessibility, eliminating the need to visit government offices.

Under the new system, taxpayers must file and pay Venue Tax payments monthly via Localgov.

To get started, hoteliers and short-term rental owners can set up an account at <https://tax.localgov.org/login>. Account setup takes just a few minutes, and customer support is readily available to guide users through the process. To learn more about Localgov, visit their website at www.localgov.org.

Sincerely,
