“IN-BOND” INDUSTRIALIZED PROGRAM

The two cities, Brownsville, Texas, U.S.A. and H. Matamoros, Tamps., Mexico have established over the past 25 years the “In-Bond” Industrialization or “Maquiladora” program. This program allows the assembly of labor intensive products at advantageous costs; thus, allowing North American products to be more competitive on a worldwide basis. Since its inception in 1966, the “In-bond” program has grown to an estimated 339 companies, expanding to a total of 4,300,000 square feet of manufacturing space, and employing approximately 100,000 people. Cameron County gains greatly from these operations since all of the Mexican plants have offices, warehouses, or twin plants on the U.S. side; U.S. management and technical personnel live in the County; goods and services are purchased in the County for use in the Matamoros facilities. Among the “Fortune 500” companies in the “In-Bond” Industrial Program are: Delphi Automotive, Tyco Electronics and Parker Hannifin.

Cameron County General Information

Intermodal Transportation

U.S. Highways 77, 83, and 281; State Highways 4, 48, 107, and 245; and nine Farm-to-Market roads traverse the County. The U.S. Congress designated the proposed U.S. Interstate Highway 69 as a high priority corridor of national significance to serve as a primary trade route from Mexico through Texas to Canada. The proposed corridor will traverse eight states and end at two southern points of border entry - Laredo and the Rio Grande Valley. The Interstate Highway 69 is intended to link with the Veteran's International Toll Bridge in Brownsville.

Union-Pacific Company, Southern Pacific Lines, and National Railways of Mexico provide rail transportation. American Airlines, Southwest Airlines, and Continental Express Airlines provide commercial air service to Cameron County through Harlingen's Valley International Airport. Federal Express, BAX Global, DHL, Southwest Cargo and United Parcel Service provide airfreight services. Continental Airlines provides commercial air-passenger service at the Brownsville - South Padre Island International Airport.

The County owns a general aviation airport with some of the longest runways in South Texas. As a former U.S. Navy airfield, the Cameron County Airport provides excellent aviation industry development opportunities. Along with its close proximity to South Padre Island, the airport is also located within an Empowerment Zone. This designation makes Federal and State programs promoting job development available to the County. The County currently employs Southwind Aviation, Inc. as the Fixed Base Operator.

The Port of Brownsville is the main shipping port for the Rio Grande Valley and South Texas. Port facilities include a man-made basin, connected by seventeen miles of channel to the Gulf of Mexico, various docking and terminal facilities, warehousing and railway switching operations that serve worldwide shipping lines, and barge transportation. There still remains a significant shrimp boat fleet located at the Port of Brownsville and Port Isabel; however, the industry faces serious challenges. Various manufacturers have located facilities in the area, further diversifying the economy. All economic indicators point to continued growth.

Tourism/Recreation

Several years ago, the State of Texas enacted strict fishing laws aimed at conservation. The impact has been so positive that a new sport fishing industry has evolved with a full array of services from fishing guides to the manufacturing of specially designed, shallow draft fishing boats. The discovery of this fishermen's paradise has further enhanced the tourism industry. The Rio Grande Valley has become known nation-wide for the number of bird varieties found nowhere else in the United States. Eco-tourism has become a major economic force in this region. A national "Birding Center" satellite location is being planned for this area. Bird watching has become a very popular activity here for many visitors to the County.

The County's warm climate provides the opportunity for residents and visitors to participate in sports and recreational activities year-round. In Cameron County, there are at least ten regulation golf courses and a number of par three courses. The latest golf course is currently open in the Laguna Madre area. For a number of years, because of a year-round semi-tropical climate, South Padre Island beaches, and its proximity to Mexico, tourism has been the County's number one industry, replacing farming. The Cameron County Park System owns and operates Isla Blanca Park, Andy Bowie Park, Adolph Thomae Park, E.K. Atwood Park, public beach access and five community parks. The County Park System's mission is to provide quality recreation opportunities to the citizens of Cameron County at an affordable price. In addition, the Park System seeks to develop and protect the County's coastal resources.

The Park System provides beach access for day-use enjoyment, offering parking, stores, restaurants, beach equipment rental, and covered areas to escape the summer sun. Fishing, surfing, volleyball and strolling along the edge of the shoreline are the main activities enjoyed at the County parks on South Padre Island. Thomae

Cameron County General Information

Park is located on the Arroyo Colorado River, three miles from the Laguna Madre Bay. This facility caters to the fishing enthusiasts providing boat launches, fish cleaning facilities, vehicle and trailer parking, picnic areas and campsites.

The Park System also provides controlled access to the miles of public beaches north of Andy Bowie Park. The Cameron County Park System also provides commissioned officer park ranger patrol to the parks and the unincorporated public areas.

Each year, thousands of people from states north of Texas spend their winters in Cameron County's warmer climate. Many of the winter Texans who visited here have now become permanent, year-round residents. During Spring Break, it is estimated that over 100,000 college students come to South Padre Island and infuse more than a million dollars into the County's economy.

New Construction

Cameron County's taxable values grew by 3.86% since January 2011. New construction in the county provided \$301,953,653 in new property values. New construction growth is 3.76% more than last year's amount. Residential construction represents 53.4% of the new properties. Commercial construction is also providing booming growth representing 15.8% of all new construction. Based upon the approved tax rate of \$0.384291 per \$100, at a 100% collection rate, total new construction should generate over \$1,160,381 in tax revenue.

2011-2012 Tax Rate and Tax Levy

The Commissioners Court approved the tax rate of \$0.384291 per \$100 assessed property valuation. The tax rate is equal to the tax rate calculated for FY 2010-2011. At this rate, current property tax revenues are budgeted to increase by 3% generating \$1,749,927 in additional tax revenues at a 100% collection rate.

The tax rate for each of the past eleven years are as follows.

TAX RATE DISTRIBUTION

The General Fund portion of the tax revenues decreased from 79.8% to 79.69% of the total levy for FY 2012-2013, compared to FY 2011-2012. Road and Bridge tax revenues increased from 10.1% to 10.13% for the corresponding years. Debt issue tax revenues decreased from 10.2% to 10.17%.

Your Tax Dollars at Work

County's total Operating Budget for Fiscal Year 2012-2013, including the General Fund, Road & Bridge/Public Works, and Debt Service, is \$122,795,167, an increase of \$2,331,358 above the prior year's resources reflecting a 1.94% increase in government in just one year. The following chart illustrates that the County relies on property tax revenue for over half of its needed resources:

Funding Sources for County Operations

A property owner with a \$83,964 home will pay \$322.67 in County property taxes for Fiscal Year 2013, an increase of \$0.00 over last year if the value of the property remained the same. These property taxes will pay the following General Government Operations, Road & Bridge/Public Works, and Debt Service requirements:

Fiscal Policy

The County Judge and Commissioners have put forth great effort to achieve an excellent bond rating. Sound fiscal management and conservative budgets produced a solid financial position. The County Auditor proposes to formalize the General Fund's Reserve for Operations' Balance amount.

The General Fund and the Special Road and Bridge Fund shall maintain a fund balance reserve for operations equivalent to two (2) months' expenditures, based upon the most recent, audited statements. If emergencies arise making it is necessary to preserve the health, safety, and general well-being of the citizens of Cameron County, the county may make appropriations from the Fund Balance Reserved for Operations; however, the county must replenish the reserve as a budgeted appropriation in the following, approved county budget. All other county funds shall maintain an operating reserve fund balance that complies with the county's bond covenants.

Fund Balance

The General Fund fund balance at September 30, 2011, was \$6,551,829 compared to \$5,195,954 at September 30, 2010 and \$6,174,360 at September 30, 2009. The unassigned portion of the fund balance was \$4,454,451. The County defends against various on-going lawsuits for which the actual cost of the litigation cannot be accurately assessed. To recognize that a potential likely liability exists for an amount yet to be defined, the County is reserving \$500,000 out of its Unreserved Fund Balance. The County is also reserving \$1,500,000 for Indigent defense.

While a portion of the fund balance is obligated, the County could access the full amount of the fund balance if an emergency should arise. The total General Fund balance represents 7.14% of the Fiscal Year 2011 total General Fund expenditures of \$72,789,396 (not including transfers out). If all resources were not available to the County's General Fund at the beginning of the fiscal year, the County's General Fund could operate for 33 days based on 2011 expenditures. It is likely, this would never happen. The more realistic use of the General Fund fund balance would be to provide for interim funding of County operations in the event of a hurricane or natural disaster. Available Federal emergency funds would likely take as long as several months to reach the County after such an event.

Revenues generated during FY 2012 but received up to 60 days after year-end will be attributed to FY 2012. The effect on the General Fund fund balance may not be as much as reported in this preliminary estimate.

Fund Balance in the Special Road and Bridge Fund at September 30, 2011, was \$3,969,972 compared to \$4,558,605 at September 30, 2010. The 2011 fund balance represents 31.8% of the \$12,487,700 annual Road and Bridge expenditures for FY 2011. Again, if all resources were not available, the Road and Bridge fund could operate for 116 days based on 2010 expenditures. Fund balance for the Road & Bridge Fund for Fiscal Year-end 2012 is estimated at \$3,969,972, an amount greater than 116 days of operation.

International Toll Bridge System: The County operates three international toll bridges. Two bridges are located in Brownsville, Texas and one is located 10 miles south of the cities of Harlingen and San Benito, Texas.

All bridges within the Cameron County International Toll Bridge System are operated under a joint agreement with the Government of Mexico. County ownership of the bridges extends to a point over the river representing the international boundary between the United States and Mexico. The respective owner governments repair and maintain specific portions of the structures. Tolls for Southbound traffic are set independently by action of the Cameron County Commissioners' Court. The following are the tolls in effect at September 30, 2011, and the changes to the toll rates to be in effect October 1, 2011:

Southbound auto crossings, System-wide, decreased by 465,762 reflecting a 8.3% decrease. It is believed that the increased security alerts and violence in Mexico is deterring individuals from crossing for shopping or dining out. Commercial truck crossings increased by 5,501, an 2.7% increase compared to the prior year's level.

International Toll Bridge System: continued

Pedestrian crossings decreased by over 56,000 for the current year compared to the prior year. 99.9% of the pedestrian traffic for the System crosses at Gateway International Bridge. It is believed that the increased security alerts and ongoing violence caused people not to venture into Mexico.

Total operating revenue for the International Toll Bridge System was \$15,113,458, up from the prior year's \$14,418,612, an increase of \$694,846, or a 4.8% increase. At September 30, 2011, the Cameron County International Toll Bridge System had \$2,297,882 in working capital, an amount sufficient to provide for 116 days of operations based on fiscal year 2011 activity.

Park System: The County Park System operations generated \$6,339,135 in fees, rentals and other income for the year, which was approximately 44.3% above last year's totals. The net income from all Park System operations was \$1,698,776. At September 30, 2011, the Park System had \$2,212,042 in working capital, an amount sufficient to satisfy the following year's debt service and provide for 135 days of operations based on activity during fiscal year 2011.

County Airport: The Airport operations provided \$38,955 from rental revenue and commissions on aviation fuel sales. The Airport is currently undergoing renovations and expansion of facilities largely due to grant funding.

Debt Administration

At September 30, 2011, the County has unlimited tax and limited tax general obligation bonds outstanding in the amount of \$62,867,517. According to Texas statutes, the County has two debt limits. Bonds issued under Article 3, Section 52e of the Texas Constitution total \$54,895,000 and bonds issued under Article 722 of Vernon's Civil Statutes total \$3,640,000. The debt limits for the two authorizations are \$3,389,046,773 (25% of real property assessed valuation) and \$661,961,515 (5% of assessed valuation of all taxable property); therefore, the County has a legal debt margin on general obligation debt of \$3,337,840,889.

The County's bond rating is "A+" from Standard & Poor's and "A1" rating from Moody's for general obligation debt.

Cash Management

Cash temporarily idle during the year was invested in certificates of deposit, money market funds, and state agency sponsored investment pools. The average yield on investments was .6%. Cameron County's investment policy is to minimize credit and market risks, while maintaining a competitive yield on its portfolio. Accordingly, the deposits were either insured by Federal Depository Insurance or collateralized. All collateral on deposits was held by the County, its agent, or a financial institution's trust department in the County's name. All investments held by the County during the year ended September 30, 2011, were classified in the category of "lowest credit risk" or Uncategorized if invested in an investment pool as defined by the Governmental Accounting Standards Board.

Fiscal Policy

Employee and Dependents' Health Benefits

On May 1, 1989, Cameron County established a Limited Risk Management Program for health and life benefits provided to County employees. Premiums are paid into an internal service fund (Health and Life Benefits Fund) by all other funds and are available to pay claims, administrative costs, and claims' reserves. Administrative costs include the cost of individual stop loss insurance (\$100,000 per insured) and aggregate stop loss insurance (determined by the monthly number of insured lives, at a specified dollar value times twelve). Premiums are actuarially calculated based on prior claims' history for the County and include an amount needed to accumulate claims' reserves for catastrophic claims. This year the Commissioners' Court approved a \$4,600 per employee premium for health insurance.

During Fiscal Year 2011, a total of \$7,500,766 was paid in benefits and \$1,614,993 was paid in administrative costs. Incurred, but not reported, claims in the amount of \$459,065 have been accrued as a liability and were actuarially determined. The Health and Life Benefits Fund reported net operating loss of \$736,829, as compared to a net income of \$345,740 in fiscal year 2010. Preliminary Employee Benefits Fund fund balance for Fiscal Year-end September 30, 2012, is projected to be approximately \$2.5 million.

Budgeting Controls

In addition, the County maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual, appropriated budget approved by the County's Commissioners' Court. Activities of the General Fund, Special Revenue Funds, and Debt Service Funds are included in the annual, appropriated budget. Project-length budgets are adopted for the Capital Project Funds. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is at the departmental level within an individual fund. The County also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end; however, encumbrances are generally re-appropriated as part of the following year's budget.

The Commissioners' Court, under Chapter 111 of the Local Government Code, appointed a County Budget Officer. The preparation of the County's budgeted expenditures and the maintenance of these appropriations throughout the year are the responsibility of the Budget Officer. Estimated revenues for the forthcoming year, and the estimated fund balance to be available for appropriations at current year-end were estimated for the County's budget by the County Auditor.

SUMMARY

Whenever a fund is not in compliance with this policy, the Auditor informs Commissioners Court as soon as possible, and plans are made to replenish the fund through budgetary and fiscal means. While this policy is a critical tool enabling the County to maintain sound financial rating, the reserves built and maintained by this policy are available to the County to address unforeseen revenue shortfalls or significant on-time expenditures that were not planned for during the budget process.

Investment Policy

1.0 INVESTMENT STRATEGY

All funds of Cameron County that are invested, are invested by matching the maturity of investments with liabilities. Investments are made with the intention of holding to maturity, but with the ability to liquidate should funds be needed at any time. This strategy is achieved by utilizing our Depository Banks Money Market Accounts, Certificates of Deposit and short term Treasury Bills, all with a stated final maturity of one year or less. The County operates various activities that differ in funding needs and requirements. Operating Funds, Capital Project Funds, Reserve Funds, Agency & Fiduciary Funds and Trust Funds are the category of funds maintained by Cameron County.

1.01 Investment Pools

Investment Pools will be limited to 60.0% of the total outstanding investment portfolio with the stipulation that no more than 35.0% can be held in any one registered pool.

1.02 Operating Funds

Operating funds provide for the daily activities of department. These resources should be kept relatively liquid. Two weeks average requirements should be kept in investments that offer daily liquidity. Funds are released weekly by approval of the Commissioners' Court. Other resources should be invested in a ladder set of investments in 30, 60, 90 day investments and/or more if warranted.

1.03 Capital Project Funds

Investment of capital project funds should be matched with the anticipated project draws. Upon receiving funding for a construction project, the engineer, architect and auditor should schedule the required resources and the treasurer should match investment maturities to coincide with construction draws.

1.04 Reserve Funds

Reserve funds are in place to provide for a shortfall, or to provide for repairs in cases of natural disaster. Reserve funds that are in place to pay the debt service of an issue if other funds are not available should be invested in instruments that mature immediately prior to the debt issue it secures. Six month maturities are typical for these funds. If more than six months in reserves exist, then investments may extend to 30 days, still with maturities immediately before due date for payments.

Emergency reserve funds should be kept more liquid than bond debt reserves. Park System reserves during Hurricane Season, during the months of May through October, should be invested no more than 30 days. Other reserve funds should be invested in a ladder scheme in various investments that have a step system of maturities. A portion of funds should be kept in daily liquid funds for immediate access.

Operating Reserve funds should equal a level of two-month operating requirements. These funds, too, should be kept in a ladder set of investments, with one month's reserves kept in daily liquid funds such as money market investments or investment pools.

Approved Budget

The Commissioners Court's priorities for the 2012-2013 Fiscal Year were to minimize the effects of major revenue losses, maintain the same level of services, to provide for the mandatory requirements of the County and to minimize any tax rate increase.

REVENUES

Current Tax revenues were budgeted at a 94.5% collection rate equal to last years rate. With a 2.72% taxable valuation growth and an increase in the tax rate the General Fund current tax revenue is projected to grow by \$1,412,389 dollars.

Intergovernmental revenues are projected to increase by \$72,053. The main areas that account for the decreases is reimbursements by other governmental agencies. The major increase is a mandated transfer of vehicle sales tax from the Road & Bridge fund to the General Fund.

Charges for services have been budgeted to decrease by \$708,236 in revenues over last years budget. The largest decrease is due the decrease revenues generated for the housing of federal inmates.

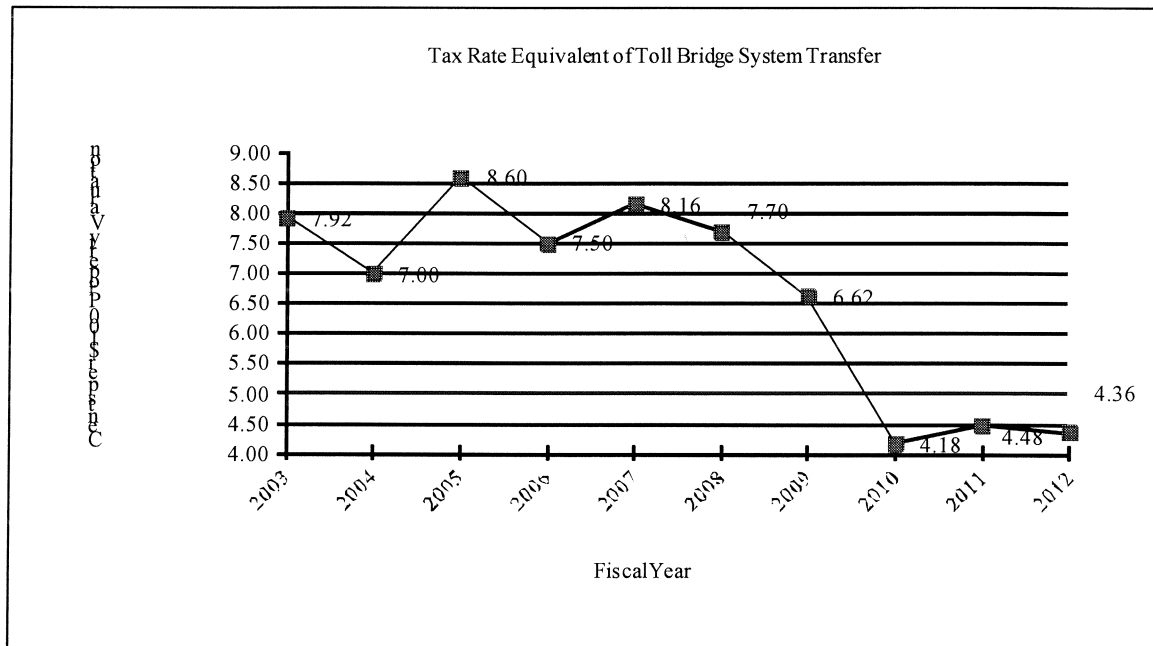

Fines and Forfeiture revenues are projected to decrease by approximately \$148,000 over last fiscal year due to a decrease in the collections in all the Courts.

Miscellaneous Revenue includes interest earnings, sales of surplus properties, commissions from rents or sales, and commissions on the collections of other governmental entities property taxes. The budgeted revenues are budgeted to increase compared to last fiscal year. The total is made up of various line item increases and decreases. The largest group of increases is inmate phone commissions. The budget was decreased by \$434,259.

Toll Bridge revenues and its transfer to the General Fund constitute a significant portion of the resources available to support the County's operations. The charts below illustrate the importance of the transfer of funds from the Cameron County Toll Bridge System to the County's General Fund. The transfer for Fiscal Year 2012-2013 is scheduled to be \$5,985,404, roughly equivalent in tax rate to \$0.04 per \$100 valuation. If the County did not have this source of funding for the General Fund, the tax rate necessary to support county operations could be as high as \$0.424281 per \$100 property valuation.

APPROVED 2012-2013 BUDGET

INDEPENDENT AUDITOR'S REPORT

The Honorable County Judge
and Commissioners' Court
Cameron County, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cameron County, Texas (County) as of and for the year ended September 30, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of September 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 30, 2012 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 19 through 28 and 77 through 79 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's financial statements as a whole. The introductory section, combining and individual non-major fund financial statements, the budget to actual schedules, capital assets used in the operations of governmental funds and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the *State of Texas Single Audit Circular* and is also not a required part of the financial statements. The combining and individual non-major fund financial statements, capital assets used in the operations of governmental funds, the schedule of expenditures of federal and state awards, and budget to actual schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis of the County of Cameron's (County) financial performance provides an overview of the County's financial activities for the fiscal year ended September 30, 2011. The MD&A should be read in conjunction with the accompanying transmittal letter, the basic financial statements and the accompanying notes to those financial statements.

FINANCIAL HIGHLIGHTS

The assets of the County's Governmental activities exceeded liabilities at the close of the FY2011 and FY2010 by \$202,529,094 and \$205,332,427 (*net assets*), respectfully. Of this amount, \$15,492,546 is restricted for specific purposes; \$2,000,000 is committed. As required by GASB 34, net assets also reflect \$186,527,468 that is invested in capital assets net of related debt. With the presentation of the investment in capital assets, unrestricted net assets becomes \$(1,490,920).

In contrast to the government-wide statements, the fund statements report a combined fund balance at year-end of \$39,114,552 of which \$4,454,451 or 11.39% represent unreserved fund balances. The more significant components of unreserved fund balance are maintained in the General Fund as emergency reserves and committed funds for indigent defense; special revenue; 2011 Certificates of Obligation for capital improvements; in the Road and Bridge fund for road improvements throughout the County.

The general fund unassigned fund balance of \$4,454,451 equals 6.12% of total general fund expenditures. The County's budgetary fund balance target is 16%.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements.

The Government-wide financial statements. *The government-wide financial statements* are designed to provide readers with a broad overview of the County's finances in a manner similar to private sector business. They present the financial picture of the County from an economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the County (including infrastructure) as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by GASB Statement No. 34 in regards to interfund activity, payable and receivables.

The *statement of net assets* presents information on all the County's assets and liabilities, with the difference between the two reported as *net assets*. Increases or decreases in net assets contrasted with budgetary decisions should serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how net assets changed during the most recent fiscal year using full accrual basis of accounting. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other business functions

that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the County include general government, public safety, highways and street, public welfare, health, judicial, and libraries.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated from specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the governmental-wide financial statements. Unlike the government-wide financial statements, however, governmental funds financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The County maintains fifty-one individual governmental funds (excluding fiduciary funds), forty-two special revenue funds, six capital project funds, two debt service funds and the General Fund. Information is presented separately in the governmental fund balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund, the Road and Bridge Fund and the Limited Tax Revenue Bond Fund which are classified as major funds. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget as a management control device during the year for the General Fund and for all Special Revenue Funds. A budgetary comparison schedule (original versus final) has been provided for the General Fund and Road and Bridge Fund to demonstrate compliance with budget.

Proprietary fund. *Proprietary funds* provide the same type of information as the government-wide financial statements, only in more detail. The Internal Service Fund (a component of proprietary funds) is used to report activities that provide supplies and services for other programs and activities-such as the County's self-insurance program and employee benefits trust. Because these services predominantly benefit governmental rather than business-type functions, the Internal Service Fund is reported with *governmental activities* in the government-wide financial statements.

Fiduciary funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. The County's fiduciary activities are reported in a separate Statement of Fiduciary Assets and Liabilities. These activities are excluded from the County's other financial statements since the County cannot use these assets to finance its operations. The accounting used for fiduciary funds is much like that used for proprietary funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the County's general fund and major

special revenue budgetary schedules. A budgetary comparison schedule, which includes the original and final amended budget and actual figures, has been provided to demonstrate compliance with this budget.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Of the County's total assets of \$293,351,664 the largest components are: 1) cash and investments of \$38,723,249 or 13.2%, 2) receivables which largely represent the deferred taxes for FY 2011 of \$7,706,344 or 2.6%, accounts/trade receivables of \$7,320,198 or 2.5%, internal balances and due from other governments of \$9,040,171 or 3.0% and 3) capital assets net of accumulated depreciation of \$230,778,629 or 78.68%. The receivables are offset by deferred revenue since the FY2011 tax revenue is not recognized until FY 2012 even though the levy takes place in FY2011. Capital assets are non-liquid assets and cannot be utilized to satisfy County obligations. Out of the total liabilities of \$90,822,570, \$16,657,316, are current liabilities; however, the current liabilities for compensated absences (\$788,459) are not anticipated to result in the draw-down of emergency reserves. OPEB liability of \$15,644,647 is not anticipated to cause a fund balance reduction and is presently being funded on a pay as you go basis.

The County's assets exceeded liabilities by \$202,529,094 at the close of the most recent fiscal year.

The County's net assets for fiscal year ended September 30, 2011 and 2010 are summarized as follows:

About 8.32% or \$16,854,509 of the County's net assets represents *restricted and committed net assets* which are resources that are subject to external restrictions on how they may be used. Restrictions include requirements, bond covenants, and granting conditions. The most significant portion, \$187,165,505 of the County's net assets reflects its *investment in capital assets* (e.g., land, buildings, machinery and equipment) net of related debt.

Governmental activities decreased the County's net assets by \$2,803,336. The key components of difference between fund statement increase and the statement of activities decrease are the following:

- A net difference in the issuance of long term debt and the repayment of these debts in the amount of (\$13,316,822) .
- An increase in net assets due to the decrease in assets reported in the government activities from the internal service fund that is reported with the governmental activities in the government-wide statements of (\$736,829).
- A decrease in net assets due to depreciation exceeding capital outlay in the amount of \$827,613.
- A decrease in net assets due to annual OPEB of UAAL of (3,369,899).
- A increase in operating transfers of \$878,461.

The Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds on page 34 further details the increase in net assets. Program revenues and expenses are presented net of interfund eliminations.

- Capital Grant revenue and contributions comprise about 18.0% of program revenues. The County is administering Disaster Recovery Funding from impacts suffered by communities from Hurricane Dolly.
- Key elements of the analysis of the Business-type activities revenues and expenses reflect the following:
 - The Bridge System revenues of \$17,691,103 accounted for 73.50% of the Business-type activities revenues.
 - The total expenses of the Bridge System were 56.12% or \$6,457,956 of the Business-type activities.

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

As noted earlier, the County uses *fund accounting* to ensure and demonstrate compliance with finance-related legal requirements. Fund accounting and budget controls has been the framework of the County's strong fiscal management and accountability. The County has been upgraded to an "A1" rating from Moody's Investor Service and Standard and Poor's rating agency rates Cameron County's debt worthiness as an "A+" rating as reported in the credit profile dated September 19, 2008. Fitch (FITCH IBCA, DUFF & PHELPS) rating of "A+" on the outstanding unlimited tax bonds, limited tax bonds and certificates of obligation.

Governmental funds. The general government functions are reported in the General, Special Revenue, Debt Service and Capital Project Funds. The focus of the County's *governmental funds* is to provide information on near-term inflow, outflows and balances of *spendable* resources. Such information is useful in assessing the County's annual financing and budgeting requirements. In particular, *unreserved fund*

balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$39,114,552, a decrease of \$2,710,019 in comparison with prior year. Approximately \$4,454,451 of the fund balance represents *unassigned fund balance*, which is available for spending at the County's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed: 1) to pay debt service (\$4,275,819); 2) for indigent defense (\$1,500,000); 3) for pending litigation (\$500,000); 4) for capital projects (\$15,123,448) and special revenue projects (\$13,163,456); 5) inventory (\$97,378).

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$4,454,451. As a measure of the general fund's liquidity, we compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 6.12% of total fund expenditures, while total fund balance represents 9.01% of total fund expenditures. General budgetary targets for reserves are 20% of expenditures which compares favorably to GFOA recommended reserves for large counties.

The fund balance of the County's general fund increased by \$1,355,875 during the current fiscal year. Key factors for the FY2011 change are as follows:

Cameron County experienced an increase in property tax collections due to increased collections and property valuation increases; judiciary collection of fees from services provided; and intergovernmental revenues. Expenditures increased \$1,912,002, a 2.7% increase; the largest increases in general government and law enforcement.

Road and Bridge fund balance of \$3,969,972 reflects a decrease of \$638,050 from prior year due to increased costs in highways and streets.

The Limited Tax Revenue Bond fund decreased by \$18,580,342 due to reclassification of debt financed capital borrowing by Cameron County for business-type activities. These Certificates of Obligations have been reclassified in the business-type activities as outstanding debt of these functions. These business type activities are paying these general obligation debts directly.

The following table presents the amount of revenues from various sources as well as increases and decreases from the prior year.

Governmental Funds – Revenues Classified by Source

	FY2011	FY2010	Increase Decrease	Percent of Change
<u>Revenues by Source</u>				
Taxes	\$ 56,080,939	\$ 55,391,712	\$ 689,227	1.24%
Licenses	3,297,461	3,497,555	(200,094)	-5.72%

Total	\$ 120,175,668	\$ 117,560,044	\$ 2,615,624	2.22%

- Taxes – the increase of \$689,227 was primarily due to an increase from the prior year in the certified tax roll and an increase in the collection rate of 94.74% to prior year rate of 94.54%.
- Intergovernmental revenues – the increase of \$1,346,655 is substantially due to Disaster Recovery Funds from Hurricane Dolly.

- Charges for current services – The revenues increased by \$1,425,240 over the prior year in this category. Court Costs collections increased due to transition of case management system.
- Fines and forfeitures increased \$199,019 from prior year collection due to case management system implementation.
- Miscellaneous – Revenues decreased \$844,423 due to loss of interest income due to current economic conditions..

The following table presents expenditures by function compared to prior year amounts.

Expenditures by Function – Governmental Funds				
<u>Expenditures by Function</u>	<u>FY 2011</u>	<u>FY 2010</u>	<u>Increase (Decrease)</u>	<u>Percent of Change</u>

Total	\$131,216,864	\$ 135,725,356	\$(4,508,492)	-3.32%

Overall, total expenditures decreased 3.32% but there were some categories that experienced significant change. For example, Capital outlays decreased 46.88% due to capital projects that that were completed in FY2010, the largest being the Carrizalez Rucker Jail Expansion and judicial complex improvements. colonia paving projects and law enforcement equipment grants. Welfare expenditures increased by 53.70% due to projects underway from Disaster Recovery Funding projects from Hurricane Dolly in July 2008.

Non-major Enterprise Funds	38,955	27,864	11,091	39.81 %

While the Bridge System is the biggest generator of revenues there was an overall 8.0% decrease in crossings from FY10. This in large part was due to the increased Mexican security measures to curb border violence as the drug cartels continue their turf war. Increased security measures on the U.S. side to stop the flow of illegal drugs and weapons export; the war in the Middle East and several Orange alerts by the Department of Homeland Security continue to have a negative impact on border crossings. As of the end of September 30, 2011 a total of 5,140,363 vehicles and pedestrians crossed into Mexico through the County's International Toll Bridges as compared to FY10 crossings of 5,606,125. While crossings have decreased revenues have increased due to toll increases. The following table shows where and when the rates have increased. The toll bridge system received \$2,577,645 from TxDOT for capital improvements.

The following table presents expenses of the different proprietary funds as compared to the previous year.

<u>Expenses by Enterprise</u>	<u>FY 2011</u>	<u>FY 2010</u>	<u>Increase (Decrease)</u>	<u>Percent of Change</u>

Non-major enterprises	58,120	303,181	(245,061)	-81.00%

The Bridge System continues to reduce costs in all areas and monitor bridge traffic monthly, increases in expenses were attributable to debt obligations. The Park System's increase in expense is due to increases in supplies, utilities and contractual expense. The non-major enterprise funds costs has finished major improvements and incurred only depreciation expense for the year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The budget is prepared in accordance with financial policies approved by the County Budget Officer and the Commissioners Court following a public hearing. The Budget Officer is required by policy to present Commissioners Court with a balanced budget that contains a no-tax increase assumption as a starting point for budget discussions.

The budget is prepared in accordance with accounting principles generally accepted in the United States of America by the County Budget Officer and approved by the Commissioners Court following a public hearing. Appropriated budgets are approved and employed as a management control device during the year. The County maintains strict budgetary controls and sets its appropriations at the line item level for each department. Appropriation transfers may be made between line item or departments only with the approval of the Commissioners Court. Reserves are established as a budget line item and may be transferred to other budget line items with approval of Commissioners Court.

The final FY2011 budget was adopted on September 15, 2010 with the total General Fund expenditures and reserves amounting to \$71,780,157 an increase of \$2,779,049 over the FY2010 budgeted expenditures and reserves, an increase of 4.03% in law enforcement and public safety due to the increased operation costs of the Carrizalez Rucker Jail Addition .

The original budgeted expenditures were \$1,645,078 less than the final amended budget. This increase was incurred in the law enforcement department due to jail overcrowding issues that necessitated housing county inmates at out of county facilities; this was an additional costs of \$1,284,598. Revenues exceeded the adopted budget by \$1,489,623 due to increase in property tax per assessed valuations and collections from court offenders.

DEBT ADMINISTRATION AND CAPITAL ASSETS

Bonds issued under Article 3, Section 52e of the Texas Constitution total \$78,380,000 and bonds issued under Article 722 of Vernon's Civil Statutes total \$3,640,000. The debt limits for the two authorizations are \$3,389,046,773 (25% of real property assessed valuation) and \$772,577,407 (5% of assessed valuation of all taxable property); therefore, the County has legal debt margins on general obligation debt of \$3,333,950,135 and \$768,937,407.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The annual budget is developed to provide efficient, effective and economic uses of the County's resources, as well as, a means to accomplish the highest priority objectives. Through the budget, the County Commissioners set the direction of the County, allocate its resources and establish its priorities.

The Commissioners' Court adopted the County's 2010-2011 budget on September 16, 2010. The budget was adopted based on estimated balances that would be available at the end of the fiscal year 2010 and estimated revenues to be received in the fiscal year 2011. The total available resources for all funds for the fiscal year 2011 are \$120,297,970. For the County's General Fund, the 2010-2011 Budget utilizes \$72,005,531 of the available funds.

For 2010-2011, the property tax rate is \$0.364291 per \$100 assessed taxable valuation, an increase over the prior year's tax rate of \$0.363191. Tax revenues are budgeted to grow by 3.8% generating an additional \$785,441 at the 94.5% property tax collection rate. The increase in county appropriations to be expended during Fiscal Year 2011 was in General Fund for Law Enforcement and Public Safety. Future projections concerning revenue from all sources will continue to be conservative in nature. The Commissioners' Court has targeted fund balance reserves to represent sixteen percent of appropriations; however, actual General Fund fund balance is approximately 6.96%.

CAMERON COUNTY, TEXAS
Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Fiscal Year Ended September 30, 2011

Amounts reported for governmental activities in the statement of activities (page 31) are different because:

Net change in fund balances - total governmental funds (page 33)	\$ 15,397,505
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. (Note 2A)	(827,613)
Some of the County's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.	50,322
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (Note 2A)	(13,316,822)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (Note 2A)	(3,369,899)
Internal service fund is used by management to charge the costs of health benefits to individual funds. The net revenue (loss) of certain activities of the internal service fund is reported with governmental activities.	(736,829)
Change in net assets of governmental activities (page 31)	<u><u>\$ (2,803,336)</u></u>

NOTES TO THE FINANCIAL STATEMENTS
September 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the County reflected in the accompanying financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Accounting principles generally accepted in the United States of America for local governments are those promulgated by the Governmental Accounting Standards Board (GASB) in *Governmental Accounting and Financial Reporting Standards*. The financial report has been prepared in accordance with GASB Statement No. 34, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*", issued in June 1999 and implemented by the County in FY2003. The most significant accounting and reporting policies of the County are described in the following notes to the financial statements.

A. REPORTING ENTITY

Cameron County (the County) is a public corporation and a political subdivision of the State of Texas. A Commissioners' Court, composed of four (4) elected County Commissioners and one elected County Judge, governs the County. The County provides a vast number of services, including public safety, administration of justice, health and human services, culture and recreation, public improvements and general administration.

As required by GAAP, the financial statements of the reporting entity include those of the County (the primary government) and its component units in conformity with GASB Statement 14 "The Financial Reporting Entity", which supersedes all previous pronouncements issued by GASB and the National Council of Governmental Accounting (NCGA) for defining the reporting entity.

In accordance with GASB Statement 39, a financial reporting entity consists of the primary government and its component units. Component units are legally separate organizations for which the elected officials of the County are financially accountable, or the relationship to the County is such that exclusion would cause the County's financial statements to be misleading or incomplete. Blended component units, although legally separate entities are, in substance, part of the County's operations, and data from these units are combined with data of the County. On the other hand, each discretely presented component unit is reported in a separate column in the combined statements to emphasize it is legally separate from the primary government.

Discretely Presented Component Units. The component unit columns in the combined financial statements include the financial data of the County's component units.

The Cameron-Willacy Counties Community Supervision and Corrections Department receives office space and equipment from the County pursuant to Texas Code of Criminal Procedure, Article 42.12 Section (10). Operations of the District are funded entirely by the State of Texas, except as noted above. Budgets and expenditures are approved by the appropriate State agency, and the District Director is appointed by the State District Judges of the area in accordance with State statute. The County is mandated to provide operating space and therefore, approves their capital budget. Complete financial statements may be obtained from:

Cameron County Emergency Services District # 1 is a separate political subdivision organized under Article III, Section 48-e, of the Texas Constitution, as proposed by S.J.R. No. 27, Act to the 70th Legislature, Regular Session, 1987, and adopted by the voters to supply the rural areas with fire and ambulance services. Although the Emergency Services District is a legally separate entity, it is included as a discretely presented component unit of the government of Cameron County, Texas, because the Commissioners' Court appoints all members to the District's Board and can influence operations significantly by the appointment of members or removal of members that do not govern the Board's activities consistent with Commissioners' Court policy.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-wide and fund financial statements

The **government-wide financial statements** include the statement of net assets and the statement of activities. Government-wide statements report, except for County fiduciary activity, information on all of the activities of the County and its component units. The effect of interfund transfers has been removed from the government-wide statements but continues to be reflected on the fund statements. Governmental activities are supported mainly by taxes, licenses and permits, charges from services, fines and forfeitures and intergovernmental revenues. The primary government is reported separately from the component units within the government-wide statements. The statement of activities reflects the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges for customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate **fund financial statements** are provided for governmental funds, proprietary fund and fiduciary funds even though the latter are excluded from the government-wide financial statements. The General Fund, Road & Bridge Fund, Limited Tax Revenue Bonds Fund and the 2011 Series Certificates of Obligation meet the criteria as **major governmental funds**. Each major fund is reported in separate columns in the fund financial statements. Non-major funds include other Special Revenue, Capital Project and Debt Service Funds. The combined amounts for these funds are reflected in a single column in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. Detailed statements for nonmajor funds are presented within Combining and Individual Fund Statements and Schedules.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The **government-wide financial statements** are reported using the economic resources measurement focus and the accrual basis of accounting. This measurement focus is also used for the proprietary and fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Revenue from forfeitures and fines are recognized when they have been assessed, adjudicated and earned. Major revenue types, which have been accrued, are district clerk and county clerk fees, justice of the peace fees, intergovernmental revenue and charges for services. Grants and similar items are recognized as revenue when all applicable eligibility imposed by the provider are met.

Revenues are classified as *program revenues* and *general revenues*. Program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions. General revenues include all taxes and grants not restricted to specific programs and investment earnings.

Governmental fund level financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as deferred revenue. Property taxes which were levied prior to September 30, 2011, and became due October 1, 2011 have been assessed to finance the budget of the fiscal year beginning October 1, 2011 and, accordingly, have been reflected as deferred revenue and taxes receivable in the fund financial statements at September 30, 2011.

Expenditures generally are recorded when a fund liability is incurred; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the liability has matured and payment is due.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government reports the following major governmental funds:

The General Fund is the general operating fund of the County and is always classified as a major fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes, charges for services, intergovernmental revenues and investment of idle funds. Primary expenditures are for general administration, public safety, health, welfare and capital acquisition.

The Road & Bridge Fund is used to account for the revenues restricted for the funding of road repairs and improvements and all related expenditures related to the County roads.

Limited Tax Revenue Bonds Fund is used to account for the taxes levied and interest earned thereon for the payment of principal and interest on general obligation bonds and Certificates of Obligation issues of the County.

Other fund types include proprietary and fiduciary funds which are considered as nonmajor funds. Nonmajor funds include Special revenue funds (other than Road & Bridge), capital project funds (other than Capital Projects and Jail Improvements) and debt service funds (other than the Limited Tax).

Proprietary fund level financial statements are used to account for activities, which are similar to those often found in the private sector. The measurement focus is upon determination of net income, financial position and cash flows. The County's Proprietary funds include the Bridge System, the Park System and the Airport System. The Proprietary funds are accounted for using the accrual basis of accounting as follows:

1. Revenues are recognized when earned and expenses are recognized when the liabilities are incurred.
2. Current-year contributions, administrative expenses and benefit payments, which are not received or paid until the subsequent year, are accrued.

Proprietary funds distinguish operating revenues and expenses from non-operating. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Fiduciary fund level financial statements include fiduciary funds which are classified into private purpose trust and agency funds. The County has only agency funds which are used to account for assets held by the County as an agent for individuals, private organizations, other governments and other funds. Agency funds do not involve a formal trust agreement. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. These agency funds serve custodial purposes for the District and County Clerks, Tax Office and Law Enforcement Judicial Offices. Fiduciary funds in custody for county government purposes are accrued for recognition in financial reports.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements(as it applies to the enterprise funds within these statements) to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private sector guidance for their business type activities subject to this same limitation. The County has elected not to follow subsequent private sector guidance.

Internal Service Fund financial statements include the administration of the health and life benefits program provided to active and retired employees and their dependents. Premiums are paid into this fund from all county programs; contributions are used to pay claims, administrative costs and claims reserves.

CAMERON COUNTY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
September 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, liabilities and net assets or equity

1. Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments. State statutes and the County's official Investment Policy authorize the County to invest in obligations of the U. S. Treasury, commercial paper, repurchase agreements, Bankers' acceptances, money market mutual funds and direct obligations of the State of Texas.

The County records investments at fair market value in accordance with provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. All investment income is recognized as revenue in the appropriate fund's statements of activity and or statement of revenues, expenditures and changes in fund balance.

2. Receivables and payables

Accounts Receivable

Property taxes are levied based on taxable value at January 1 prior to September 30 and become due October 1 and past due after January 31. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property tax receivables for prior year's levy are shown net of an allowance for uncollectible.

Accounts receivables from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the County. Program grants are recorded as receivables and revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when they are earned in the government-wide statements. Included are fines and costs assessed by court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as deferred revenue in the fund statements. Receivables are shown net of an allowance for uncollectibles.

Lending or borrowing between funds is reflected as "due to or from" (current portion) or "advances to/from other funds" (non-current). Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable financial resources. Interfund activity reflected in "due to or from" is eliminated on the government-wide statements.

3. Inventories and prepaid items

Inventory is valued at average cost. Inventory in the General and Special Revenue Funds consists of expendable supplies held for consumption. In the General Fund, the cost is recorded as expenditure at the time the inventory items are used. In the Special Revenue Funds, inventory items expected to be used within a short period of time, are recorded as expenditures at the time of purchase; other inventory items are expensed when used. Reported inventories are offset by a reservation of fund balance which indicates they do not represent "available spendable resources."

4. Capital Assets – Primary Government

Capital assets, which include land, buildings and improvements, equipment and infrastructure assets (e.g., roads and bridges) are reported in the government-wide financial statements. Capital assets such as equipment are defined as assets with a cost of \$5,000 or more. Infrastructure assets include County-owned roads and bridges. Capital assets are

recorded at historical costs if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>Years</u>
Building	40
Furniture and fixtures	5
General equipment	5
Trucks	6
Cars	6
Computer hardware	5
Infrastructure	30

5. Compensated Absences – A liability for unused vacation and compensatory time for all full time employees is calculated and reported in the government-wide statements. For financial reporting, the following criteria must be met to be considered as compensated absences;

- a. leave or compensation is attributable to services already rendered
- b. leave or compensation is not contingent on a specific event (such as illness)

Per GASB Interpretation No. 6, liabilities for compensated absences are recognized in the fund statements to the extent the liabilities have matured (i.e. are due for payment). Compensated absences are accrued in the government-wide statements.

Primary Government – The County's permanent, full-time employees accrue 3.09 hours of vacation per pay period (biweekly) from date of employment to five years of service, 4.62 hours per pay period from 5 years to 15 years of service and 6.16 hours per pay period in excess of 15 years of continuous employment. The maximum accrual is two, three or four weeks of vacation for the respective accrual categories specified. Upon termination from County employment, an employee shall be entitled to payment for total accrued but unused hours of vacation.

The County's permanent, full-time employees accrue sick leave at the rate of 3.09 hours per pay period. Sick leave is paid to current employees if the employees are absent from work due to illness, injury or other situations requiring medical attention. An employee who leaves the employment of the County for any reason shall receive no compensation for accrued sick leave.

Amounts of accrued vacation leave are accrued in the government-wide financial statements.

6. Subsequent Events

Management has evaluated subsequent events through March 30, 2012, which is the date the financial statements were available to be issued.

7. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities under governmental activities or proprietary fund type statement of net assets. On new bond issues, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance cost are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are

reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Unemployment and Workers' Compensation Benefits

The County is a reimbursing employer for unemployment compensation benefits. Reimbursements are made on the basis of regular billings received from the Texas Employment Commission. The County also processes workers' compensation payments through a third-party administrator as the claims become due. These obligations are budgeted and paid from current resources (see Note 12).

9. Fund Equity

GASB Statement 54 – *Fund Balance Reporting and Governmental Fund Type Definitions* was implemented by Cameron County as of fiscal year end 9/30/11. This statement sets a hierarchy that intends to determine to what extent a government is bound to observe spending constraints governing how it spends fund balance. The fund balances of governmental funds are defined as follows:

Non-spendable: these are funds that cannot be spent either because they are not in spendable form, such as inventory or prepaid items or because they must be maintained intact. General fund has inventory costs classified as *non-spendable*.

Restricted – these are funds that can be spent only for specific purposes and are subject to externally enforceable legal restrictions. Typically these restrictions are imposed by parties outside of the local government such as creditors through bond covenants, grantors and other governments through laws and regulations. All grants received by county government are classified as Special Revenue Funds with restricted usage. Capital Projects funded through debt issuance are classified as Restricted through bond covenants.

Committed – these are funds that can only be spent through formal action of the governing body. Cameron County's General Fund has committed funds of \$500,000 for any pending litigation that may arise during the year and \$1,500,000 for indigent defense costs in the event unanticipated costs are incurred. Usage of these funds requires approval by the governing body.

Assigned – these funds are intended to be used for specific purposes as established by governing body.

Unassigned – these funds represent all other residual fund balance amounts in the general fund.

2. RECONCILIATION OF GOVERNMENT WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance for total governmental funds and net assets as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore, are not reported in the funds.” The details of this \$77,791,462 difference are as follows:

Bonds payable	\$56,327,506
Accrued interest payable	263,826
Unfunded Actuarial Accrued Liability	15,644,647
Leases payable	4,512,075
Receivable (Enterprise Fund)	369,994
Lease payable(Enterprise Fund)	(165,131)
Deferred charge for Refunding	841,254
Deferred charge on Premium	(1,457,836)
Deferred charge for issuance costs	<u>1,455,127</u>
Net adjustment to reduce fund balance – total government	
Funds to arrive at net assets – governmental activities	<u>\$77,791,462</u>

Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation indicates that “governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of capital assets is allocated over their estimate useful lives and reported as depreciation expense” on capital outlays for County owned assets only. Some capital outlays are for roads not owned by the County. The details of this \$(827,613) difference are as follows:

Capital outlay (excluding outlays for non-County roads)	\$14,150,527
Depreciation expense	(14,978,140)
Net adjustment to increase net changes in fund balance	
total governmental funds to arrive at changes in net assets-	
of governmental activities	<u>\$(827,613)</u>

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. The details of this difference is as follows:

New Debt	22,738,100
Bond Premium on Issuance & Refunding	826,719
Capital leases financing	1,826,021
Enterprise New Debt Obligation	
Principal repayments:	
Bonded debt	(3,880,000)
Transfer to Escrow	(6,037,009)
Capital leases	<u>(2,157,009)</u>
Net adjustment to decrease net changes in fund balances-total governmental	
Funds to arrive at changes in net assets of governmental activities	<u>\$ 13,316,822</u>

2. RECONCILIATION OF GOVERNMENT WIDE AND FUND FINANCIAL STATEMENTS

B. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

Another element of the reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The detail of these \$3,369,899 differences is as follows:

Unfunded Actuarial Accrued Liability 10/1/10	\$12,274,748
Net OPEB End of Year	<u>15,644,647</u>
Net adjustment to increase net change in fund balances-total governmental	
Funds to arrive at changes in net assets of governmental activities	<u>(\$ 3,369,899)</u>

3. DEPOSITS AND INVESTMENTS

A. DEPOSITS, INCLUDING CERTIFICATES OF DEPOSIT

The County considers account balances in demand deposit accounts and certificates of deposit with a maturity of less than three months to be cash. It is the County's policy for cash to be 105% secured by collateral valued at market or par, whichever is lower, less the amount insured by the Federal Deposit Insurance Corporation (FDIC). At September 30, 2011, the carrying amount of the County's interest-bearing demand accounts and certificates of deposit totaled \$82,027,095. Bank balances and certificates of deposit totaling \$73,932,519 at September 30, 2011, were insured by FDIC or collateralized with a FHLB and FHLBL held by the pledging institution's agent in the County's name. Certificates of deposit are considered to be a cash equivalent. The net proceeds from the issuance of the Limited Tax Refunding Bonds, Series 2011 have been deposited in the Escrow Fund to refund the Refunded Obligations. The accuracy and sufficiency of such deposits to make payments has been confirmed by The Financial Advisor and such amounts will be held in an escrow fund under an Escrow Agreement dated June 1, 2011 between the Issuer and the Escrow Agent. All investments are to be made only in U.S. Treasury Securities and all such receipts will be applied to the payment of principal of and interest on the Refunded Obligations or will be held uninvested as cash in the Escrow Fund until the next date for payment of interest on the Refunded Obligations. The advance refunding has met the requirements of an in-substance debt defeasance and the Refunded Obligations are deemed to have been fully paid and no longer outstanding, except for the purpose of receiving payments from the deposited bond proceeds and any cash held for such purpose by the Escrow Agent for the Refunded Obligations and such Refunded Obligations will not be deemed as being outstanding obligations of the County payable from taxes nor for the purpose of applying any limitation on the issuance of debt. Advanced Refunding and Defeased Debt (continued)

November 1, 2005 and the Combination Tax & Limited Tax Pledge Revenue Certificates of Obligation, Series 2000 are redeemed on February 15, 2010. The advance refunding met the requirements of an in-substance debt defeasance and the refunded part of the Series 1996A and 1996B bonds were removed from long-term debt of the enterprise and the refunded part of the Series 2000 bonds were removed from the governmental activities column of the statement of net assets. As of September 30, 2009, the balance remaining on this debt was \$18,880,000. The reacquisition price exceeded net carrying amount of the old debt by \$2,096,412. This amount is being netted against the new debt and amortized over the remaining life of the bonds, which is the same life as the refunded debt.

As a result of the advance refunding, the County decreased its total debt service requirements by \$2,688,624, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$993,324, after reduction of prior funds on hand of \$1,191,350.

In prior years, the County has defeased various bond issues by creating separate, irrevocable trust funds. New debt has been issued and proceeds were used to purchase U.S. government securities placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, this debt has been considered defeased and therefore, removed as a liability from the governmental activities column of the statement of net assets.

11. LONG TERM DEBT (continued)

Bond Indenture Requirements

During the period in which the bonds are outstanding, the International Toll Bridge Bond Resolution and Order requires the County to create and maintain certain accounts or "funds" to receive the gross revenues derived from the operations of the System.

In accordance with the terms of the Bond Resolution, these assets can be used to 1) pay the maintenance and operating expenses of the System, 2) pay the debt service costs of the System's revenue bonds, and 3) pay for any ordinary maintenance, repairs, or replacements to the System's property. Any remaining revenues may be transferred to other County funds or used for the purchase of the System's outstanding revenue bonds at a price less than par and accrued interest. During fiscal year 1984, a "fund" was established to control the expenditure of the proceeds of a bond sale. The "fund" was established to pay for certain construction work to be performed on the System.

Advance Refunding

On August 1, 2005 the County issued Limited Tax Refunding Bonds, Series 2005 in the amount of \$21,420,000 of which \$6,347,256 were issued to refund the International Toll Bridge Combination Tax & Revenue Refunding Bonds, Series 1996A and the International Toll Bridge Combination Tax & Revenue Certificates of Obligation, Series 1996B in the amounts of \$5,010,000 and \$2,315,000, respectively. The net proceeds from the issuance of the Limited Tax Refunding Bonds, Series 2005 were used to purchase U.S. government securities, and those securities were deposited into an irrevocable trust with an escrow agent to provide debt service payments until the International Toll Bridge Combination Tax & Revenue Refunding Bonds, Series 1996A and the International Toll Bridge Combination Tax & Revenue Certificates of Obligation, Series 1996B are redeemed on November 1, 2005. The advance refunding met the requirements of an in-substance debt defeasance and the refunded part of the Series 1996A and 1996B bonds were removed from long-term debt.

As a result of the advance refunding, the Cameron County International Toll Bridge System decreased its total debt service requirements by \$1,672,305, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$367,254, after reduction of prior funds on hand of \$1,191,350. These savings and economic gain are part of the savings disclosed in Note 11C above.

On October 15, 2007, Cameron County authorized the issuance of Cameron County, Texas International Toll Bridge System Revenue Refunding Bonds, Series 2007 to refund the International Toll Bridge System Revenue Improvement Bonds, Series 1997, \$6,125,000. These bonds are payable from and secured by the net revenues of the Toll Bridge System. The 2007 Refunding Bonds were sold at par (\$4,005,000) with an additional Toll Bridge contribution of \$167,508 for bond issuance costs. Present Value savings on this Revenue Refund 2007 issue were \$206,932.

Defeased Debt
Toll Bridge System

On August 1, 1989, Cameron County issued \$4,200,000 International Toll Bridge System Revenue Refunding and Improvement Bonds; Series 1989. The net proceeds of \$3,740,275 from said issue (after payment of \$459,725 in issue costs and accrued interest) were used to purchase U.S. Treasury obligations for the advance refunding of the 1983 Toll Bridge Revenue Bonds in the amount of \$2,500,000, and \$1,515,275 were utilized in the Toll Bridge Construction Fund for the acquisition of real property.

On January 15, 1996, Cameron County issued \$10,880,000 International Toll Bridge System Combination Tax and Revenue Refunding Bonds, Series 1996-A. The net proceeds of \$10,731,885 from said issue, (after payment of \$317,802 in issue costs and accrued interest), were used to purchase U.S. Treasury obligations for the advance refunding of the \$4,200,000 Toll Bridge System Revenue Refunding and Improvement Bonds, Series 1989, the \$1,800,000 International Toll Bridge Revenue Bonds, Series 1991, and the \$5,000,000 International Toll Bridge Revenue Bonds, Series 1992, bonds outstanding totaled \$1,085,000.

Additionally, the U.S. Treasury obligations were deposited in an irrevocable trust with an escrow agent to provide for debt service payments of the \$4,200,000 Toll Bridge System Revenue Refunding and Improvement Bonds, Series 1989, the \$1,800,000 International Toll Bridge Revenue Bonds, Series 1991, and the \$5,000,000 International Toll Bridge Revenue Bonds, Series 1992. As a result, the bonds referred to above are considered to be defeased, and the liability for those bonds has been removed from long-term debt. At September 30, 2011 defeased bonds outstanding remain of \$440,000. As a result of the advance refunding, the County will decrease its total debt service payments during the period of the new bond issue by \$517,303 and incur an economic gain of \$502,676 (difference between present values of debt service payments on old and new debt).

The purpose of the advance refunding of the above-mentioned Revenue Bond issues was to achieve savings through reduced interest rates made possible by including a limited tax pledge as security.

12. RISK MANAGEMENT

The County is exposed to various risks of loss relating to general liability, the accidental risk of loss of real and personal property, damage to County assets, errors and omissions, and personal risks which relate to workers' compensation. The County implements a number of risk strategies such as participating in risk pools, purchasing commercial insurance, self-insurance with specific and aggregate stop-loss insurance, and full self insurance to manage those listed risks. Amounts of coverage for these types of risk have not been subject to a significant reduction in the current year. The County purchases \$500,000 in coverage for public employees theft and dishonesty blanket bond through National Union Five Insurance Company of Pittsburgh.

WORKERS' COMPENSATION INSURANCE

The County is a member of a risk pool for Workers' Compensation Insurance administered by the Texas Association of Counties (TAC). TAC's Workers' Compensation Self-Insurance Fund was created to enable each county or county-related governmental entity to provide for self-insurance. The County participates in the fund under an agreement pursuant to the provisions of Article 8309h of the Texas Workers' Compensation Act. TAC's Workers' Compensation Insurance Program provides medical and indemnity payments, as required by law, for job-related injuries up to the State's statutory limits. Interfund premiums for workers' compensation are determined by position class code, at actuarially determined rates. As a member of the pool, the County would incur a liability only if the pool's operations become insolvent. The policy renews annually on January 1. The plan-year is reported on a calendar year basis. The County's 2010 calendar year contribution was \$1,124,531.

The following is a schedule of premiums paid and claims incurred:

Calendar* Year	Workers' Compensation Insurance Premium Paid	Workers' Compensation Insurance Claims Paid	Claims (Over) Under Premium Paid

2010	1,124,531	634,463	490,068

OTHER INSURANCE

The County is also a member of a risk pool for automobile, general liability, and property and casualty insurance. The property and casualty insurance covers buildings, structures, and personal property, including coverage extensions for earth movement, flood, accounts receivable, valuable records, demolition, increased costs of construction, transit, business interruption, mobile equipment, builder's risk, and loss of rents. Specifically excluded is coverage for fine arts, physical damage to owned automobiles and leasehold interests. Each type of asset covered has specific liability limits and deductibles.

EMPLOYEE HEALTH AND LIFE BENEFITS

On May 1, 1989, Cameron County established a limited risk management program for health and life benefits provided to active and retired employees and their dependents. Premiums are paid into the Internal Service Fund (Health and Life Benefits Fund) by all funds through payroll contributions and are available to pay claims, administrative costs, and claims reserves. Administrative costs include the cost of individual stop loss insurance (\$100,000 per insured) and aggregate stop loss insurance (determined by the monthly number of insured lives, at a specified dollar value times twelve), as well as fees charged by a Third Party Administrator (TPA).

Premiums are based upon coverage for the defined fixed administrative fees and the per capita costs of anticipated aggregate health care spending for the upcoming year. Over the past several years, actual costs have decreased as Cameron County has promoted Wellness Plans and Preventative Care, thus resulting in a Fund Balance of \$3,237,686. Currently, the Fund's board is examining program saving measures, greater participation of the plan users, and alternate plans for provision of service to insure the financial well being of the program as well as maintaining the ability to provide the level of care desired by the County.

During fiscal year 2011, a total of \$7,500,766 was paid in benefits and \$1,488,581 was paid in administrative costs. Estimated claims payable, based upon claims filed and estimated unfiled claims at year end, totaled \$459,066 as of September 30, 2011. Changes in the balances of claims liabilities during the past three years follow:

PUBLIC OFFICIALS AND LAW ENFORCEMENT LIABILITY

The County self-insures its activities that are normally covered with public officials (errors and omissions) insurance and law enforcement liability insurance. Lawsuits involving wrongful termination, sexual harassment, and breach of contract are typically covered through Public Officials Insurance; whereas, civil rights violations, illegal search and wrongful

incarceration are covered by Law Enforcement Liability Insurance. Since the County is self-insured in these areas of liability, there are no exclusions. Insurance policies purchased from private insurance companies could exclude certain coverages that would leave the County uninsured. Therefore, the lawsuits listed below may or may not have been specifically covered by an acquired insurance policy. Because the County is self-insured with regards to law enforcement liability and public officials liability, all settlements exceed insurance coverage amounts. The County is currently defending against various lawsuits concerning Public Officials and Law Enforcement Liability. While the final outcome of these lawsuits cannot be certain, the County has reserved \$500,000 to provide for a contingency in cases in which the County may be adversely ruled upon.

ENTERPRISE ACTIVITY COVERAGE

The System maintains insurance coverage for fire, extended coverage, malicious mischief, and toll equipment coverage. Vehicles are self-insured as to comprehensive collision coverage; however, auto liability coverage is provided through the Texas Association of Counties in amounts above the legal requirements. The County insures the bridge spans for property damage in amounts significantly less than the historical cost of each bridge through McGriff Insurance Agency, AGCS Marine Ins. Co. (Allianz).

The Gateway International Bridge has \$3,300,000 in coverage for the bridge span property damage and \$5,500,000 for use and occupancy coverage protecting from loss of revenues. The Free Trade Bridge at Los Indios has \$4,900,000 to cover property damage to the bridge spans and \$2,500,000 for use and occupancy coverage protecting from loss of revenues. The Veteran's International Toll Bridge also has \$4,900,000 to cover property damage to the bridge spans and \$6,500,000 for use and occupancy coverage protecting from loss of revenues. A significant portion of the amounts capitalized in toll bridges and approaches constitute nonconstruction costs such as environmental assessments, presidential permits, U.S. Coast Guard Permits, legal, engineering, geotechnical surveying, archeological examination, as well as land and site preparation. Most of these costs will not recur should a bridge span need replacement or repair. In addition, private engineering firms structurally inspect all international bridges.

Windstorm and Hail insurance coverage is included under General Property Insurance coverage provided by Diamond State Insurance Company with a 2% deductible for Enterprise Funds of Cameron County. Flood insurance coverage in the amount of \$2,522,500 is provided for buildings by Harleysville Ins. Co. and NFIP.

13. COMMITMENTS AND CONTINGENCIES

LITIGATION

The County is presently a defendant in various lawsuits. While the County plans to vigorously defend itself, legal counsel for the County cannot assess the loss, if any, that may result from unfavorable judgments against the County.

The County is also a defendant in cases involving law enforcement operations. The County is self-insured with regards to law enforcement liability. A number of these cases have been dismissed; however, the resolution of those matters still pending is not expected to have a material effect on the County's financial condition.

The County is a defendant in a real estate case where Plaintiffs allege County abandoned an easement that was given to County Parks for the use of park purposes. This is a complicated case involving donated land that Commissioners Court sought to develop by leasing land for development of a hotel complex within the park. The outcome of this case is not known at this time and the material effect, if any, is not known.

In February 2011, a 7 year old child drowned in a Community Park swimming pool located on land leased by Cameron County from the Catholic Diocese in Santa Maria. The pool was not in operation at the time. Texas Association of Counties, the County's Tort Claims Act insurance carrier, has been notified. The incident should be covered by insurance under the County's Tort Claims Act coverage. Under the Act, damages are limited to \$100,000 per person up to a maximum of \$300,000. No damages outside of the County's coverage are anticipated at this time. Suit has been filed and the County is being defended by the Law Firm of Willette and Guerra.

There were no distributions during this fiscal year and liabilities are not expected to be material.

14. RETIREMENT PLAN

Plan Description

Cameron County provides retirement, disability and death benefits, for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide, Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 586 nontraditional defined benefit pension plans. TCDRS issues an aggregate comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan's provisions are adopted by the governing body of the employer, within the options available in the state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service or with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits, with interest. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy

The employer has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDR Act, the contribution rate of the employer is actuarially determined annually. The employer contributed using the actuarially determined rate of 8.48% for the months of the accounting year in 2010 and 8.51% for the months of the accounting year in 2011.

Funding Policy

The contribution rate payable by the employee members for the calendar years 2010 and 2011 is the rate of 7.00% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Annual Pension Cost

For the employer's accounting year ended September 30, 2011, the annual pension cost for the TCDRS plan for its employees was \$4,229,220 and the actual employer contributions were \$5,136,892. Employer contribution represents the amount County needs to contribute to fund future benefits for current, former and retired employees. The annual required contributions were actuarially determined as a percent of the covered payroll of the participating employees, and were in compliance with GASB Statement No. 27 parameters based on the actuarial valuations as of December 31, 2010 and December 31, 2011, the basis for determining the contribution rates for calendar years 2010 and 2011.

The required contribution was determined as part of the December 31, 2010 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2010 included (a) 8.0 percent investment rate of return (net of administrative expenses), and (b) projected salary increases of 5.4 percent. Both (a) and (b) included an inflation component of 3.5 percent. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a ten year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis.

The most recent actuarial valuation, dated December 31, 2010, is as follows:

Other Post Employment Benefits

Plan Benefits

Governmental Accounting Standards Board issued Statement No. 45 improving financial reporting by requiring systematic, accrual-basis measurement and recognition of Other Post Employment Benefits (OPEB) costs over a period that approximates an employee's years of service. In compliance with this statement, Cameron County has implemented the requirements of GASB Statement No. 45 during fiscal year 2008; GASB 45 benefits provided by Cameron County to retirees only includes medical benefits. Cameron County administers a single-employer defined benefit variety that covers employees, retirees and their spouses. The plan provisions allow members to retire upon attaining age 60 with 8 or more years of service or when the sum of their age and years of service equals 75 or more. Dependents of retirees who are not eligible for Medicare are also eligible for coverage while retiree is alive but they must pay for dependent coverage. Effective 10/1/07, retirees are not eligible for medical benefits after age 65. Participants under disability are eligible for continued medical coverage under COBRA but must pay the full premium. Cameron County does not offer dental, vision, hearing or life insurance benefits to retirees. Local Government Code Section 157.101 assigns the authority to establish and amend benefit provisions to Commissioner's Court. Monthly medical contributions required by retirees are as follow:

	<u>Retiree</u>	<u>Retiree & Spouse</u>	<u>Retiree & 1 Child</u>	<u>Retiree & more than 1 child</u>
Medical/Tx	\$250.78	\$468.78	\$400.78	\$425.78

Membership in the plan at 10/1/09 the date of the latest actuarial valuation, consists of the following:

Active Members: 1,413 members
Retirees and beneficiaries receiving benefits: 38 members

**MULTIPLE EMPLOYER DEFINED BENEFIT GROUP TERM PLAN
GROUP TERM LIFE FUND**

Cameron County participates in a cost-sharing multiple-employer defined-benefit group-term life insurance plan operated by the Texas County & District Retirement System (TCDRS). This plan is referred to as the Group Term Life Fund (GTLF). This optional plan provides group term life insurance coverage to current eligible employees and, if elected by employers, to retired employees. The coverage provided to retired employees is a postemployment benefit other than pension benefits (OPEB). Retired employees are insured for \$5,000.

The GTLF is a separate trust administered by the TCDRS board of trustees. TCDRS issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the GTLF. This report may be obtained by writing to the Texas County & District Retirement System, P.O. Box 2034, Austin, Tx. 78768-2034 or by calling 1-800-823-7782.

Funding Policy

Each participating employer contributes to the GTLF at a contractually required rate. An annual actuarial valuation is performed and the contractual rate is determined using the unit credit method for providing one-year term life insurance. Cameron County's contributions for the GTLF for the years ended 9/30/11, 2010 and 2009, were \$151,183, \$159,477, and \$159,581, respectively, which equaled the contractually required contributions each year.

Annual OPEB Costs and Net OPEB Obligation

The Annual Required Contribution (ARC) is the amount Cameron County would be required to report as an expense for fiscal year beginning October 1, 2009. The ARC is equal to the Normal Cost and an additional amount to amortize the unfunded Actuarial Accrued Liability (AAL) over 28 years on a closed basis. The ARC is the representation of an accounting expense and the County is not required to fund this expense or to contribute to a special separate trust. For fiscal year end 2011, the County's annual OPEB cost (expense) was \$3,639,362 for the post employment healthcare plan. Cameron County's annual OPEB cost, percentage of annual OPEB cost contribution and net OPEB obligation information is summarized below.

The following table shows the calculation of the Annual Required Contribution and Net OPEB Obligation.

Actuarial Methods and Assumptions

Cameron County's first actuarial study was completed as of 10/1/07; current actuarial study is reflected on data as of 10/1/09. The actuarial cost method used for determining benefit obligations is the Projected Unit Credit Cost Method. Under this methodology the actuarial present value of projected benefits is the value of benefits expected to be paid for both active and retirees. The Actuarial Accrued Liability (AAL) is the actuarial present value of benefits attributed to employee service rendered prior to valuation date. The AAL equals the present value of benefits multiplied to a fraction equal to service to date over service at expected retirement. Normal Cost is the actuarial present value of benefited attributed to one year of service. This equals the present value of benefits divided by service at the anticipated date of retirement. Retirees are not accruing anymore service; their normal cost is zero. In determining the ARC, the Unfunded AAL is amortized as a level dollar over 28 years on a closed basis. Actuarial assumptions are summarized in the chart listed:

Retiree Premium Increases Same as trend disclosed above

Demographic assumptions regarding retirement and turnover are based on statistics taken from the Texas County and District Retirement System (TCDRS) pension valuation. For retirement prior to age 65, 100% of employees are assumed to elect continued coverage in retirement under the current plan. 50% of employees are assumed to have a covered spouse in retirement and no dependent children are assumed. Age of spouses covered are assumed to be same as retiree. Medical plan was reviewed as well participant census, paid claims and reinsurance recoveries data from the date September 2007 through May 10. Medical premiums are assumed to increase with the medical trends. Administrative expenses and stop loss premiums per employee per month for plan years 2008 thru 2011.

Cameron County has not funded a separate, irrevocable trust to fund annual OPEB costs. The discount rate used for OPEB determination costs is 4.0%; the County's long term expectation of returns on its operating funds. Retirement and withdrawal rates are the same as used by Texas County and District Retirement System in its actuarial valuations of retirement benefits.

Healthcare inflation rate used in this actuary study was determined by using health cost projection rates released by the Office of the Actuary at the Centers for Medicare and Medicaid Services (CMS). Inflation rate was determined for both medical costs and administrative costs.

14. RETIREMENT PLAN (continued)

The actuarial study was completed using (1) actuarial valuations that involve estimates of the value of reported amounts and assumptions about the probability of events far into the future and (2) these actuarial amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. OPEB calculations are based on the substantive plan in effect at the time of valuation and on the pattern of sharing of costs between employer and plan members.

Additional Disclosures

Texas Local Government Code, Chapter 175 requires counties make available continued health benefit coverage to retirees and their dependents beyond the end of an individual's employment with County. Texas Law does not require counties to fund all or any portion of such coverage. Effective October 1, 2007, County discontinued medical coverage after age 65. The County may incur a debt obligation to pay for OPEB cost for its retired employees so long as the County follows the constitutional requirement that it have sufficient taxing authority available at the time such debt is incurred to provide the payment of the debt and has levied a tax for such purpose. Information and amounts presented in the County's Comprehensive Annual Financial Report relative to OPEB expense/expenditures, related liabilities (assets), note disclosures, and supplementary information are only intended to achieve compliance with the requirements of generally accepted accounting principles (GASB 45) and does not constitute or imply that the County has made a commitment or is legally obligated to provide OPEB benefits. Cameron County has not incurred a legal debt obligation for OPEB nor has it levied a tax for the same. The County does not have a separate audited GAAP basis postemployment benefit plan report available for defined benefit plans. Currently, the County funds costs associated with OPEB on a current "pay as you go" basis for each single year through annual appropriations authorized by Commissioners Court during the annual County Budget Adoption Process.

15. PRIOR PERIOD ADJUSTMENTS

Cameron County issued Series 2005 Limited Tax Refunding \$21,420,000, Series 2007 Certificates of Obligation \$8,000,000, Series 2008 Certificates of Obligation \$16,075,000 for capital projects. County issuances of this long term debt included debt financed capital contributions from general government for business type activities. At the time of issuance, business type long term debt from these issuances was recognized as a note payable to Limited Tax Bonds Fund and as a note receivable in Limited Tax Bonds Fund. Cameron County believes that the proper accounting principle preferable in this debt recognition is to recognize this debt as long term debt of business type activities. This change has been implemented as of 9/30/11. It is the intent of Cameron County for proprietary funds to pay these debt financed capital funding obligations in compliance with bond covenants.
