

WORKERS COMPENSATION RFP# 1470
QUESTIONS & ANSWERS

Q1: Has county taken any action regarding any employee carrying or keeping guns around county premises?

A1: At the two Commissioners Court meetings when we discussed the new open and concealed carry legislation the topic of employees carrying or keeping guns around county premises came up. I specifically notified the Court that the County could elect to limit or control the carrying or keeping of guns by employees if they wanted to. No desire to do so was expressed and no direction to draft proposed policies was given. Therefore the response is that the issue has been the subject of discussion but no specific action has been taken.
