**Q & A**

Truck bed company is telling me a 3200# Electric Crane like your bid is calling for makes the truck you are wanting too small of a truck and will require outriggers for the crane and a reinforcement to the frame as your specs call for this to be mounted on the right rear corner of flat bed. **Your liability factor increase because this truck you are wanting is too light for what you are wanting.**

**amend bid to include outriggers and reinforced frame**

**Transit wagon 15 passenger**

Cat. A This is the transit wagon 15 passenger, they do not make panel covers for the inside of the glass windows ( the van will have privacy glass) will that work

**see Q & A addm # 2**

Cat. G Is the Maroon color a must. Also nothing specified as to power windows and locks.

**see Q & A addm # 2**

Cat. H On some of the vehicles getting quoted it states tinted glass. Is the factory tint sufficient or do you want after market tint

**factory tint OK**

Cat. I This unit and the next one request for a back up camera, you must need the power group in order to get the camera(power windows and locks)

**OK - power back up camera required with whatever process you deem necessary**
